**Spiral Staircases**

**Coated Galvanised Steel**

**Wrought Iron**

**Nylon & Wood**

**Combi Line Door Furniture  
to complement Handrails**

# HISTORY

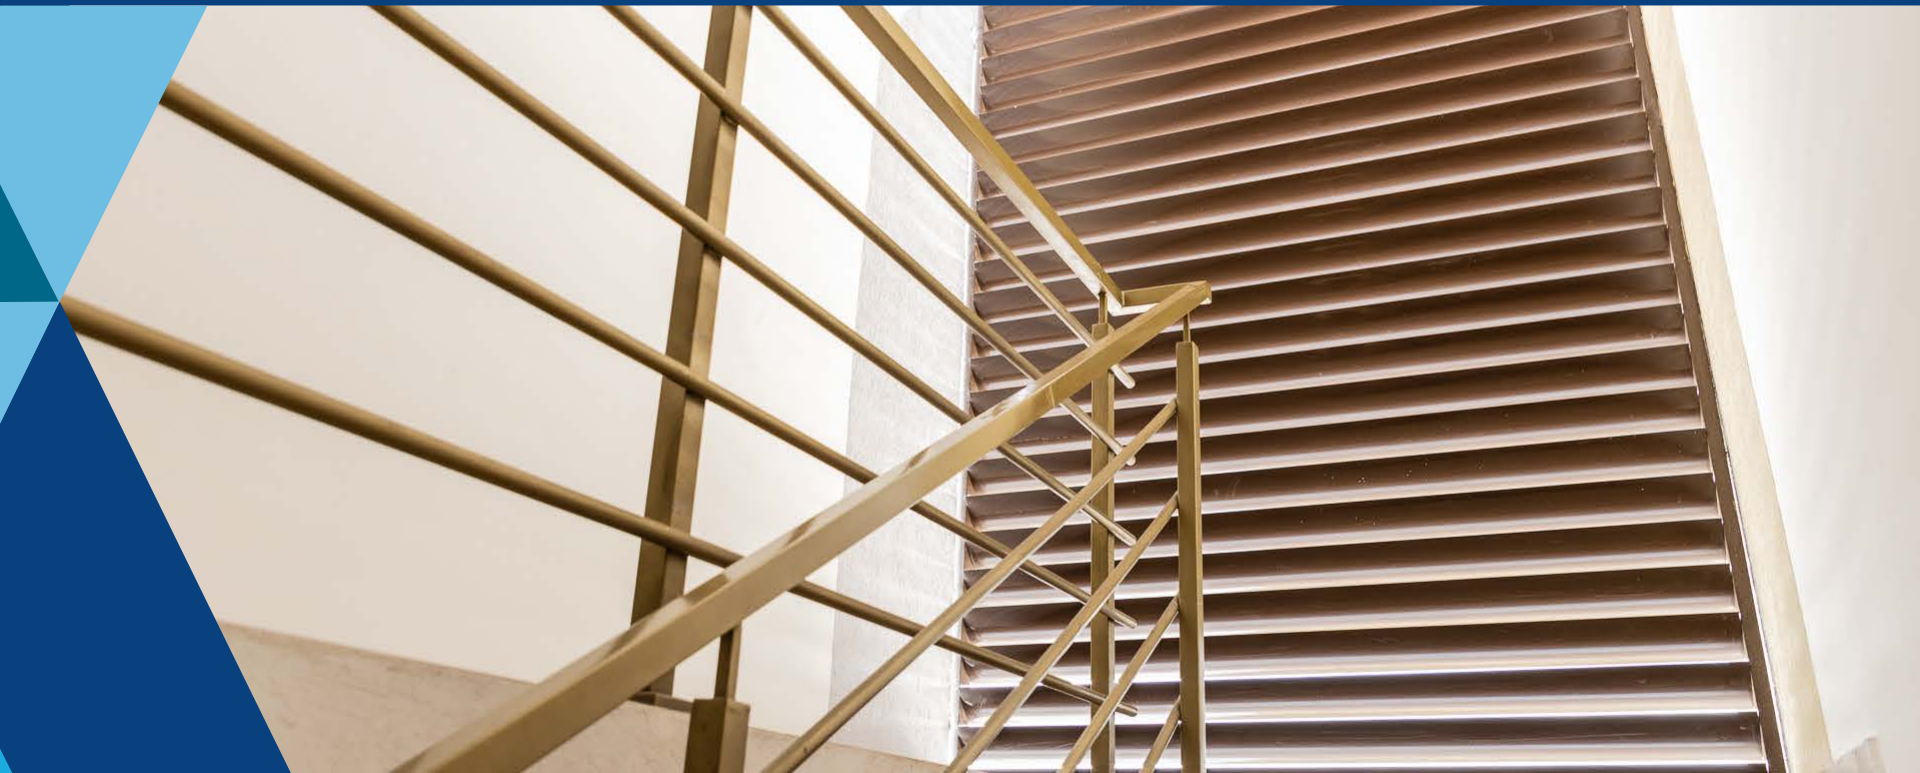

APPL was established in 2005 as a family owned business. Prior to that, the family had been in the manufacturing of corrugated, galvanised iron sheets and the production of steel, wire nails and the importation of door locks.

The building industry in Ghana took an upward curve with property developments springing up. This led APPL to reposition itself to be a major player in the architectural ironmongery industry. APPL represented multinational brands such as Ingersoll-Rand, Tesa Locks & Tesa Entry Systems, and Normbau of Germany.

The company prides itself in supplying architectural ironmongery to some of the major landmark buildings in the country as displayed in our portfolio of projects executed.

## WHY CHOOSE US

Our years of experience and rich relationships with international suppliers enable us to install aesthetically pleasing, state-of-the-art modular components that blend stainless steel with wood, aluminium, or a combination of galvanised steel interspersed with stainless steel elements.

APPL is currently exploring the possibility of a louver line, producing complete louvre systems for both real estate, halls and auditoriums using plexiglass. APPL has been successful in supplying and installing such a system in leading educational institutions.

### Professional Team

With a well trained and professional team, we guarantee your project will be executed within time and with impeccable outcomes.

### After-Installation Support

We offer after-installation maintenance and support to ensure our fittings function properly for the life span of your building.

### Quality Materials

We are committed to installing top of the range railings and balustrades so we've gone to lengths to partner with leading providers for this.

### Years of Experience

Over a decade and a half APPL has been in the business of Ironmongery specification and supply.

## FEATURED PROJECTS

Our work is featured in some of the iconic buildings dotting the cityscape of Accra. Our installations add a touch of impeccable class to, and lend an air of modernity to the architecture.

# Picasso Boutique Apartments

Off the busy Oxford street in Osu, and nicely tucked away is this apartment block. Balconies are clad in 12mm laminated glass held in place by Q-railing stainless effect aluminium base shoe 122mm x 60mm

## Palmer's Place

Frameless glass balustrades held in place by Q-railing stainless steel glass adapters combined with aluminium base shoe 122 x 60mm for staircase.

# Avant Garde Apartments

Stair area balustrades are made from steel cored aluminium balusters with 40 x 40mm brushed satin hand rails with 16mm stainless steel mid-rails.

## Powered Louvres

Electrically powered louvres that can also be switched off and operated manually. There are Aluminium louvre blades of different colours to choose from. Alternatively, you can choose translucent PEP louvre blades with HSS Anti-burglar bars inserted in them.

Also available in a variety of colours.

## Galvanised Railings

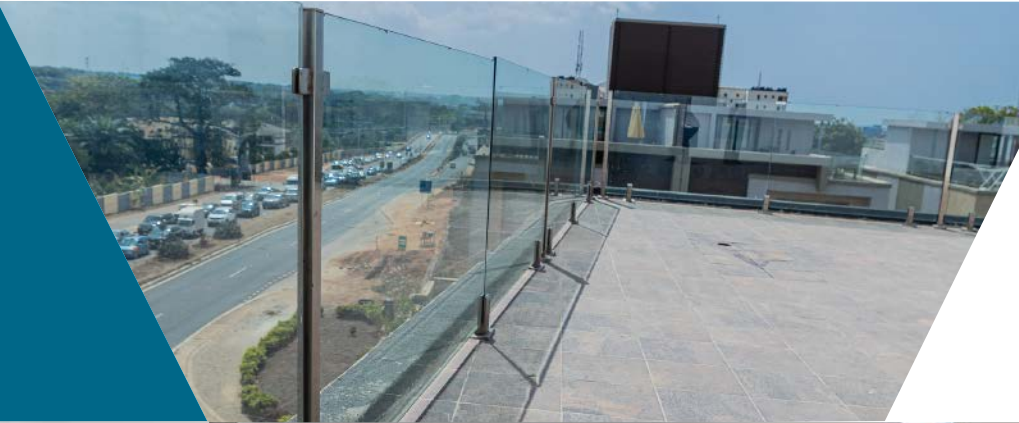

50mm epoxy sprayed galvanised steel balustrades with 42.4mm (316 grade) stainless steel hand rails specifically installed for disabled use in hospital environments.

# Acasia Apartments

Stair area and balcony balustrades in Apartments are made from steel cored aluminium balusters with 40 x 40mm brushed satin hand rails with 16mm stainless steel mid-rails. Pool area and Town house balconies are cladded with 12mm laminated glass held in place by stainless steel spigots. Atrium area in apartments are made from steel cored aluminium balusters with 40 x 40mm brushed satin hand rails with 10mm clear laminated glass in-fill panels.

# Balustrades

Stainless and aluminium; a perfect blend for colour variety and affordable price.

Satin stainless Steel with perforated epoxy coated steel plate

## Folding Glass Doors

Folding doors (Glass & wood) for maximising indoor space.  
Convenient installation & smooth operation

## Jewel of the Ridge

Stainless Steel & Glass Railing protection around swimming pool

## PARTNER BRANDS

In the hospitality industry, APPL represents one of the biggest brands in the Hotel Electronic locking systems known as Onity of Spain.

Over the period of our existence, we have cemented our relationship with other top brands to deliver and install cutting-edge innovations.

Our partners are all industry leaders and so we guarantee all our installations reflect the best technology in the world.

The Onity logo features a blue power button symbol to the left of the word "Onity" in a bold, blue, sans-serif font.

**Onity**

The Q-railing logo consists of a white "Q" inside a blue circle, followed by the word "railing" in a white, sans-serif font, all set against a dark blue square background.

**Q-railing**

The dorma kaba logo features the words "dorma" and "kaba" stacked vertically in a blue, sans-serif font, with a red and white graphic element to the right of "kaba".

**dorma  
kaba**
